

COURSE FEATURES

CPA Review –Twin Cities has grown in both reputation and enrollment since Dr. Dennis Knutson started the business in 1988. Current owner Thomas N. Howard passed all parts of the exam in his first sitting and is a testament to the value of a well-designed CPA preparatory course. Hundreds of other Twin Cities CPAs received the help they needed to pass the CPA exam from our program.

We are convinced that a review taught ‘in person’ by qualified faculty can outperform any national canned review and can do so at a lower cost to the participant. Our success supports this conviction. We concentrate on attracting highly qualified and motivated participants — typical graduates of Upper Midwest colleges and universities — and focus our attention on the material tested most often on the CPA exam. In addition, we include suggestions on exam-taking strategies as well as the technical subject in our classroom discussions. Students who read the materials, attend the classes and work the assigned problems are well prepared for the exam.

COURSE MATERIALS

The texts used in the program are the CPA Review texts published by **Gleim Publications**. Irvin Gleim has long been widely recognized as a leader in developing CPA review materials. The Gleim texts are supplemented by course notebooks containing instructor-prepared handouts, outlines and sample CPA Exam questions.

Students enrolled in **CPA Review – Twin Cities** order texts directly from Gleim. Upon registration for the Review, you will be given the instructions necessary to get the prices indicated below. Included with the manuals will be **CPA Test Prep Software** at no additional cost. You will also have the option to purchase (at an additional cost) Gleim’s online practice Simulation Wizard. Simulation questions (or case studies) are included in all exam parts except Business Environment and Concepts (BEC). We highly recommend the student purchase at least one Simulation Wizard to practice working with the case studies.

2010 prices for Gleim CPA Review materials are as follows:

\$65 -Book for each part (including Test Prep Software), plus \$6 shipping.

\$50 - Simulation Wizard for each part

Note: There are no discounts for ordering more than one at a time

CONVENIENT LOCATION

CPA Review - Twin Cities classes are conducted at the Luther Seminary (located minutes from downtown Minneapolis or St. Paul). Directions will be sent to you upon registration. Free and safe parking is readily available.

THE FACULTY

All class sessions are taught by professionals with experience serving in public accounting and/or university faculty from top-flight Wisconsin and Minnesota universities. All of the instructors are dedicated to your success. They have been selected based on their classroom effectiveness and their willingness to focus their classroom remarks on teaching students what they should know to pass the exam. All are familiar with CPA exam coverage in their respective subject areas.

CPA REVIEW – TWIN CITIES

CPA Review – Twin Cities has helped hundreds of candidates pass the CPA exam since 1988. Our faculty are prepared to help CPA candidates prepare for the “computerized” CPA exam.

Former student, Dan Campion—winner of the Minnesota Gold Medal and Silver Medal nationally— said, “Dr. Knutson runs a review that actually cares about each candidate...There were no surprises on the CPA Exam...I highly recommend this class...the material was presented in a way that gave me a great deal of confidence.” That level of customer care remains intact.
